Rave On Iris

Iris 'Rave On'

Plant Height: 3 feet

Flower Height: 4 feet

Spread: 24 inches

Spacing: 18 inches

Sunlight:

Hardiness Zone: 3a

Group/Class: Tall Bearded

Ornamental Features

Rave On Iris features showy orange flag-like flowers with a orange beard at the ends of the stems from late spring to early summer. The flowers are excellent for cutting. Its sword-like leaves remain green in color throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Rave On Iris is an herbaceous perennial with tall flower stalks held atop a low mound of foliage. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should be cut back in late fall in preparation for winter. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Rave On Iris is recommended for the following landscape applications;

- Mass Planting
- General Garden Use

Planting & Growing

Rave On Iris will grow to be about 3 feet tall at maturity extending to 4 feet tall with the flowers, with a spread of 24 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 18 inches apart. The flower stalks can be weak and so it may require staking in exposed sites or excessively rich soils. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years.
